Summary

Third-year B.Tech (AI & Data Science) student skilled in Python, C, HTML, CSS. Interested in Machine Learning, Computer Vision, LLMs, and backend development, with a passion for building scalable AI-powered applications.

Skills

Programming: Python, C, C++, Java.

Web: HTML, CSS, JavaScript.

Libraries: Pandas, NumPy, Matplotlib, Hugging Face Transformers

Tools: Git, GitHub, AutoCAD 2D/3D

Projects

Roadscapes VLM Comparison under Day and Night Conditions

2025

Python, Pandas, NumPy, Matplotlib, Hugging Face Transformers

- Built a benchmarking pipeline to evaluate four Vision-Language Models (Phi-3, Qwen2-VL, LLaVA, and PaliGemma) on the Roadscapes dataset.
- Evaluated Object Counting, Object Description, and Surrounding Description under day and night conditions.
- Generated automated comparison tables and visualizations for category-wise and overall accuracy.
- Qwen2-VL achieved the highest overall accuracy (49.33%), followed by Phi-3 (45.83%), LLaVA (42.83%), and PaliGemma (40.00%).

V-OS Portfolio

2025

HTML, CSS, JavaScript

- Developed a Windows 98-inspired portfolio featuring a desktop environment with draggable application windows and a classic taskbar interface.
- Built custom desktop applications including a music player, games, About Me, Skills, Projects, and Contact sections with smooth window animations.
- Implemented startup and shutdown sequences, interactive desktop icons, responsive UI components, and modern JavaScript for application management.
- Designed the project to showcase frontend development skills while recreating the nostalgic Windows desktop experience.

Experience

Design Consultant (Intern)

Sep 2023 – Feb 2024

WIKA Instruments Pvt. Ltd.

- Gained hands-on experience with industrial product development and engineering workflows by helping with design and engineering tasks. Worked together with the design team to comprehend product design procedures, precise engineering needs, and technical specifications, developing a solid grasp of industry best practices and professional design standards while contributing to technical documentation.

Industrial Trainee

May 2023 – June 2023

Railway Coach Care Center

- Received hands-on experience with railway coach repair and inspection procedures while completing industrial training at the Railway Coach Care Center, working alongside RTR machine inspections, taking part in train roll-in and roll-out operations, and gaining a solid understanding of safety procedures, quality inspection methods, and preventative maintenance techniques in an industrial setting.

Certifications

- NSIC AutoCAD Certification
- Generative AI Course powered by Google Cloud

Education

Dr. Akhilesh Das Gupta Institute of Professional Studies (ADGIPS), GGSIPU <i>B.Tech – Artificial Intelligence & Data Science</i>	Present
G.B. Pant Institute of Technology <i>Diploma – Mechanical Engineering</i>	2020 – 2023
Tinu Public School <i>Class X</i>	2019 – 2020
